AUTUMN NEWSLETTER 2010

Dear Customer

Since writing in the Spring we have faced a very difficult season with grass yields down by 25/30% in most areas and Cereal prices on a roller coaster..

I must have spoken to many grassland farmers since the end of first silage cut all complaining about lower yields, only one farmer who bought 150 Tonnes of Super Slag Basic reported excellent yields from his Hybrid Ryegrass /Red Clover Leys. Applied @ 1 Tonne per acre every 4 years is an excellent investment.

We are able to offer:

FERTILISER

UK Nitrogen 34.%		Aug delivery Best value
LITHUANIAN 34.5%		Sept delivery
SULPHATE OF AMMONIA 21%		
C.A.N. 27%		Aug delivery
GRANULAR UREA 46%		Sept Delivery
PRILLED UREA 46%		
TSP 46%	<i>Increasing in price</i>	We have a very good price
MOP 60%	<i>Increasing in price</i>	We have a very good price
