SCS LTD ORGANIC NEWSLETTER AUTUMN 2010

Dear Customer

Since the Spring newsletter Organic farmers have had a very difficult season owing to lower rainfall.

Only one customer with 300 cows out of the many I have spoken with was impressed with his first silage cut having previously purchased 150 tonnes of Super Slag Basic for his Hybrid Ryegrass / Red Clover Leys.

We are able to offer a great range of Fertiliser for the Organic farmer. An excellent portfolio of Organic Winter Cereal & Grass Seeds and Organic Grain Marketing.

FERTILISER FOR THE ORGANIC FARMER

SUPER SLAG BASIC - Superb product for enhancing grass palatability and Soil conditioner

SUPER SLAG BASIC

**Contains LIME, PHOSPHATE MAGNESIUM
MANGANESE, BORON, SELENIUM
+ *Many other trace elements***

REMEMBER

Super Slag Basic is an effective source of LIME

Super Slag Basic is an effective source of PHOSPHATE

Super Slag Basic is an effective source of TRACE ELEMENTS

Super Slag Basic has a release mechanism to release locked up PHOSPHATES

**REMEMBER SUPER SLAG BASIC is
“The BEST fertiliser for Organic grassland production”**

Rock Phosphate	29/30% Phosphate <i>First choice where high levels of phosphate are required.</i>
Natural Gypsum	Typically 48% So ₃ 20% Ca O <i>First choice where Calcium and sulphur are needed and ph is low or high where heavy soils need breaking up and aerating</i>
Gyphos	a range with Gypsum and rock phosphate <i>First choice where Gypsum is needed as well as phosphate Analysis is available from 0-3-0+35so₃ up to 0-15-0+19so₃.</i>
Super Slag Gyphos	a range with slag & gypsum + rock phosphate <i>First choice where sulphur, lime, phosphate and trace elements are required. Analysis available from 0-1-0+ 19so₃ +10calcium up to 0-8-0+12so₃</i>
Elemental Sulphur Granules	90% elemental S (225%so ₃) <i>First choice where high ph is locking up nutrients is a problem</i>
Sylvanite	Potash and Sodium product in Short supply <i>First choice Potash for acid soils</i>
Sulphate of Potash	Granular 50% Potash + Sulphur <i>First choice Potash for alkaline soils</i>
Keiserite	Magnesium Sulphate granular <i>First choice for Magnesium hungry high ph light soils</i>

LIME
